

Adelaide Airport

Adelaide, South Australia

Contract since 1995

Delaware North Companies have had a long association with Adelaide Airport – operating at the domestic terminal from 1995 and expanding our operation to the International Terminal in 2000.

The \$260 million redevelopment of the Airport in 2005 gave Delaware North the opportunity to create a retail mix as part of the new retail precinct that spans 846 square metres.

We continue to work with our client to constantly review and revitalise the retail menu mix. Most recently this included the refurbishment of Cafe Terra Rossa & Bar 1862 to increase the offering and customer service efficiencies.

Delaware North were awarded Retailer of the Year of Adelaide Airport in 2010.

LOCAL ICONS & PROPRIETARY CONCEPTS

COOPERS ALEHOUSE - LICENCED

We partnered with Coopers to create the first dedicated Coopers Alehouse – and the locals and visitors love it. World acclaimed architects, Grimshaws, designed the bar. It's contemporary and stylish features are in contrast to the history of Coopers. With Coopers on tap and a specially designed bar and snack menu, Coopers Alehouse is a destination for visitors, travellers and staff.

BAR 1862 - LICENCED

This tenancy was given to Delaware North by the client 12 months into the new contract term – as demand showed that another Bar was needed. We continued with the Coopers theme naming it 1862 – the year Coopers brewed their first drop. The 1862 menu offer reflects the essence of Coopers Alehouse.

A global leader in hospitality and food service.

Adelaide Airport
